## **Two Historic Trials in Red Fort**

The Indian National Army (INA) trials of 1945–46 have generally been given short shrift by historians in their cataloguing of the Indian freedom movement. This book examines to what extent the trials had an impact on the final phase of India's quest for independence. In so doing, it unveils that, while the Indian National Congress's extended odyssey to win independence was essentially about a passive push-back, at a critical juncture of its campaign to extinguish British colonialism in India, it applauded and capitalised on the INA's use of force. The central, explosive narrative is about Britain holding a court martial of three officers of the INA – Shah Nawaz Khan, Prem Sahgal and Gurbaksh Dhillon – convicting them, before a dramatic turn in events. The material unearthed by the book throws new light on a decisive juncture leading to the transfer of power in India. It will be indispensable for researchers interested in South Asia, especially the Indian freedom movement. It will be invaluable for students of history, colonialism, military studies, politics in pre-Partition India and law.

This unique volume provides a detailed analysis of Australia's 300 war crimes trials of principally Japanese accused conducted in the immediate aftermath of the Second World War. Part I contains contextual essays explaining why Australia established military courts to conduct these trials and thematic essays considering various legal issues in, and historical perspectives on, the trials. Part II offers a comprehensive collection of eight location essays, one each for the physical locations where the trials were held. In Part III post-trial issues are reviewed, such as the operation of compounds for war criminals; the repatriation of convicted Japanese war criminals to serve the remainder of their sentences; and reflections of some of those convicted on their experience of the trials. In the final essay, a contemporary reflection on the fairness of the trials is provided, not on the basis of a twenty-first century critique of contemporary minimum standards of fair trial expected in the prosecution of war crimes, but by reviewing approaches taken in the trials themselves as well as from reactions to the trials by those associated with them. The essays are supported by a large collection of unique historical photographs, maps and statistical materials. There has been no systematic and comprehensive analysis of these trials so far, which has meant that they are virtually precluded from consideration as judicial precedent. This volume fills that gap, and offers scholars and practitioners an important and groundbreaking resource.

## **A Hundred Horizons**

Which is more meaningful for us to know: how we LOST our independence or how we WON it? Undoubtedly, the answer to the first question has priority. We must learn how only a handful of British could subjugate and rule zillions of us for nearly 200 years! This information will help us in taking care of the mistakes committed by our ancestors. It will also prepare us to meet similar challenges in future. Yet, our textbooks don't enlighten our students much on the subject. Also, there are very few publications on this topic. Why? Since British rule started with their victory at the Battle of Plassey in Bengal, this story is based on that background. It uncovers some obscured chapters of our past, which are crucial for us to know. Notwithstanding its Bengali antecedents, the storyline has a direct bearing on the historical criminality of the entire Indian subcontinent. There are many unaddressed questions about socio-political history. Who had started the Hindu-Muslim discord, and how? Why, following partition, the displaced people from Pakistan received different treatments in different regions in India? For the book lovers in general and history buffs in particular, many such thought-provoking issues are there in this book.

## **Jungle Alliance, Japan and the Indian National Army**

The assassination of Mahatma Gandhi on 30 January 1948 was a declaration of war and a statement of intent. For the forces who conspired in the killing, the act was a declaration of war against the secular, democratic Indian state and all those who stood to affirm these principles, as well as an announcement of a lasting commitment to India as a 'Hindu Rashtra'. It was also an act to signal the elimination of all that India's national movement against imperialism stood for. Beyond Doubt is a dossier of historical and critical documents that aims to contextualize the politics, motivations and circumstances behind the assassination of Mahatma Gandhi. Attempts to legitimize the act of killing and to celebrate the killers have re-doubled since May 2014, following the coming to power of the new regime in New Delhi. The time is right, therefore, to set the record straight. The visceral hatred directed against Gandhi and the denigration of everything he stood for need to be recounted if we are to understand the political nature of that dastardly act. This book attempts to weave together archival documents from Government of India records relating to developments after the assassination, with translation of works in Marathi, Gujarati and Hindi de-constructing the ideology responsible for the political killing. While several of the documents have appeared before in issues of Communalism Combat, this compilation presents new material on the subject. The first English translation of Jagan Phadnis's book, Mahatmyache Akher, forms part of the dossier, as do Y.D. Phadke's analysis of attempts to legitimize Gandhi's killing and Chunibhai Vaidya's analysis of Pradeep Dalvi's play on Godse. It also covers the recent controversy over the destruction of files relating to Gandhi's assassination by Government of India.

"Laid to Rest: The Controversy over Subhas Chandra Bose's Death is the most comprehensive compilation of hard evidence ever presented on the still hotly-debated demise of one of the heroes of the Indian freedom movement. It pieces together a plethora of first-hand, eye-witness accounts of the plane crash at Taipei that resulted in Subhas Bose breathing his last in a Japanese military hospital, his cremation and the transfer of his ashes to Japan, where they remain till date. In a veritable tour de force, the book presents irrefutable, overwhelming testimonies from survivors of the crash, people who were at Bose's bedside when he passed away, attendees at the cremation and couriers of the mortal remains to Tokyo and ultimately to its current resting place at Renkoji temple. Indian, Japanese and Taiwanese nationals unite to provide an unimpeachable and unanimous verdict. The publication decimates conspiracy theories; and questions successive Indian governments for ignoring the plaintive cry of Bose's Austrian widow and economist daughter to apply closure to a needless and never ending controversy. In the two World Wars, hundreds of thousands of Indian sepoys were mobilized, recruited and shipped overseas to fight for the British Crown. The Indian Army was the chief Imperial reserve for an empire under threat. But how did those sepoys understand and explain their own war experiences and indeed themselves through that experience? How much did their testimonies realise and reflect their own fragmented identities as both colonial subjects and imperial policemen? The Testimonies of Indian Soldiers and the Two World Wars draws upon the accounts of Indian combatants to explore how they came to terms with the conflicts. In thematic chapters, Gajendra Singh traces the evolution of military identities under the British Raj and considers how those identities became embattled in the praxis of soldiers' war testimonies – chiefly letters, depositions and interrogations. It becomes a story of mutiny and obedience; of horror, loss and silence. This book tells that story and is an important contribution to histories of the British Empire, South Asia and the two World Wars.

## **Beyond Doubt**

This major collection of essays, a sequel to *Modernity at Large* and *Fear of Small Numbers*, is the product of ten years' research and writing, constituting an important contribution to globalization studies. Appadurai takes a broad analytical look at the genealogies of the present era of globalization through essays on violence, commodification, nationalism, terror and materiality. Alongside a discussion of these wider debates, Appadurai situates India at the heart of his work, offering writing based on firsthand research among urban slum dwellers in Mumbai, in which he examines their struggle to achieve equity, recognition and self-governance in conditions of extreme inequality. Finally, in his work on design, planning, finance and

poverty, Appadurai embraces the \"politics of hope\" and lays the foundations for a revitalized, and urgent, anthropology of the future.

The life of Nathuram Godse, the man who shot Gandhi Dhirendra Jha's deeply researched history places Nathuram Godse's life as the juncture of the dangerous fault lines in contemporary India: the quest for independence and the rise of Hindu nationalism. On a wintry Delhi evening on 30 January 1948, Nathuram Godse shot Gandhi at point-blank range, forever silencing the man who had delivered independence to his nation. Godse's journey to this moment of international notoriety from small towns in western India is, by turns, both riveting and wrenching. Drawing from previously unpublished archival material, Jha challenges the standard account of Gandhi's assassination, and offers a stunning view on the making of independent India. Born to Brahmin parents, Godse started off as a child mystic. However, success eluded him. The caste system placed him at the top of society but the turbulent times meant that he soon became a disaffected youth, desperately seeking a position in the infant nation. In such confusing times, Godse was one of hundreds, and later thousands, of young Indian men to be steered into the sheltering fold of early Hindutva, Indian nationalism. His association with early formations of the RSS and far-right thinkers such as Sarvakar proves that he was not working alone. Today he is considered to be a patriotic hero by many for his act of bravery, despite being found guilty in court and executed in 1949.

Kapur Commission Report deals with the Conspiracy to Murder of Mahatma Gandhi who was shot dead point-blank range by Nathuram Vinayak Godse in Birla House Prayer Gardens on 30th January 1948. Three among the eight accused i.e. Madanlal, Karkare, and Gopal Godse were released on 12th October 1964 after completion of their life-sentence and honoured on November 12, 1964 in Pune at a private function presided by Dr. G.V. Ketkar. In that function, Delhi and Bombay Civil and Police administration were strongly condemned for their laxity and dereliction of duty which ultimately resulted in the murder of Mahatma Gandhi. The Indian Express dated November 14, 1964 commented adversely about this function. There was a furore in Bombay Legislative Assembly and Indian Parliament which led the institution of Kapur Inquiry Commission. The Commission's report was made public in 1970s. This digitised Report in two parts is an indispensable one for Judicial Officers & Police Officials, Lawyers & Students of Legal Studies, Historians & Human Right Activists, and above all for Indian Politicians & Bureaucrats in discharging their official duties without any commission or omission and comprehending the social responsibility that is to be shouldered as and when required in times of crisis. ## **The Testimonies of Indian Soldiers and the Two World Wars**

An insightful history of censorship, hate speech, and majoritarianism in post-partition South Asia. At the

time of the India-Pakistan partition in 1947, it was widely expected that India would be secular, home to members of different religious traditions and communities, whereas Pakistan would be a homeland for Muslims and an Islamic state. Seventy-five years later, India is on the precipice of declaring itself a Hindu state, and Pakistan has drawn ever narrower interpretations of what it means to be an Islamic republic. Bangladesh, the former eastern wing of Pakistan, has swung between professing secularism and Islam. Neeti Nair assesses landmark debates since partition—debates over the constitutional status of religious minorities and the meanings of secularism and Islam that have evolved to meet the demands of populist electoral majorities. She crosses political and territorial boundaries to bring together cases of censorship in India, Pakistan, and Bangladesh, each involving claims of “hurt sentiments” on the part of individuals and religious communities. Such cases, while debated in the subcontinent’s courts and parliaments, are increasingly decided on its streets in acts of vigilantism. Hurt Sentiments offers historical context to illuminate how claims of hurt religious sentiments have been weaponized by majorities. Disputes over hate speech and censorship, Nair argues, have materially influenced questions of minority representation and belonging that partition was supposed to have resolved. Meanwhile, growing legal recognition and political solicitation of religious sentiments have fueled a secular resistance.
